

## Census Information

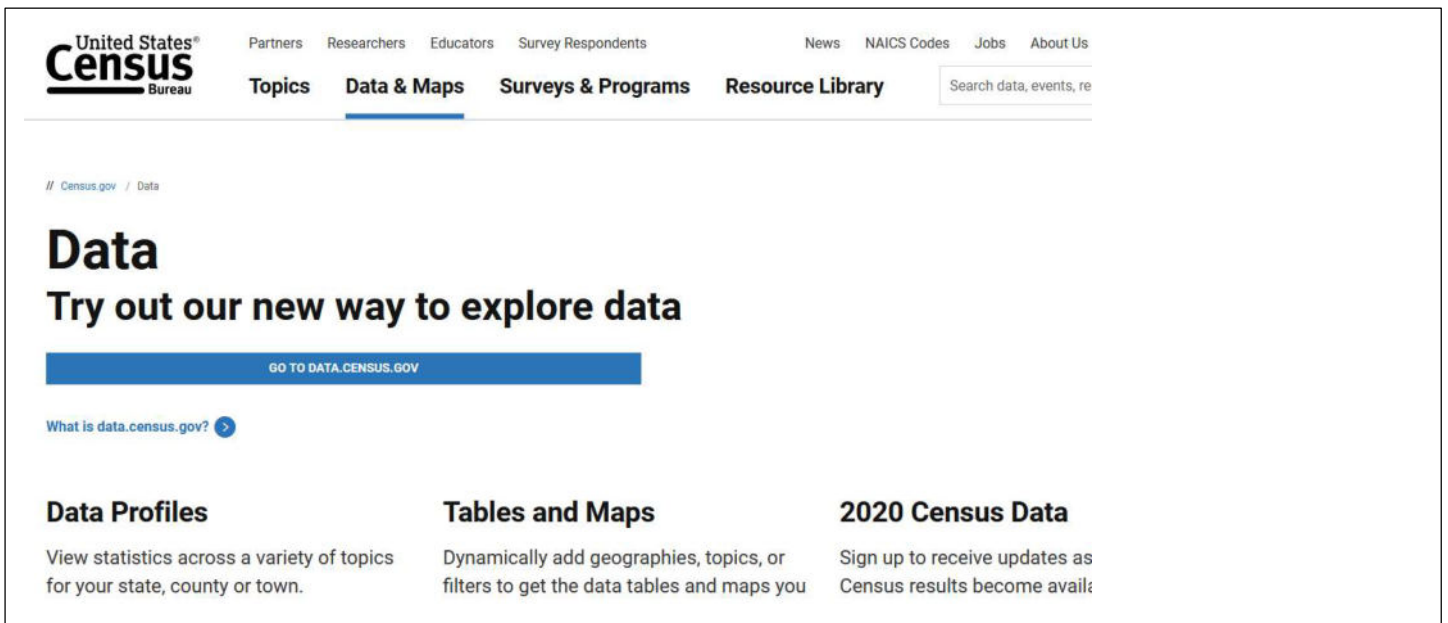

Ever try to figure out how many households in a given area bring in more than \$75,000 annually, or \$100,000, or \$180,000, etc? The US Census provides up-to-date statistics, free for the asking.

Start by visiting <https://www.census.gov/data.html>

Click DATA

Find your state and click on it

From that point you can find household income amounts and how many households are in your city, ages, veterans, dual income households, etc.

A screenshot of the US Census Bureau's "Data & Maps" page. The header includes the "United States Census Bureau" logo and navigation links for Partners, Researchers, Educators, Survey Respondents, News, NAICS Codes, Jobs, and About Us. Below the header, there are tabs for Topics, Data & Maps (which is selected), Surveys & Programs, and Resource Library. A search bar is located on the right. The main content area features the heading "Data" and the subheading "Try out our new way to explore data". Below this is a blue button that says "GO TO DATA.CENSUS.GOV". A link "What is data.census.gov?" with a right arrow is also present. At the bottom, there are three columns: "Data Profiles" (View statistics across a variety of topics for your state, county or town.), "Tables and Maps" (Dynamically add geographies, topics, or filters to get the data tables and maps you), and "2020 Census Data" (Sign up to receive updates as Census results become avail:).
